## Vacation Request Lot 10B, Collins Heights Industrial Park

City of Gillette and City Council,

We at PRC request an issuance of a building permit at our own risk to construction a 20x50 addition on the back of our shop to replace an old structure that was removed last month. This new structure encroaches 4' on to the existing 20' easement on the back of the lot, in which PRC is currently working on getting vacated. We anticipate City Councils approval in three readings, but time is of the essence so we need to start construction immediately. Please authorize the building department to issue a building permit for this structure with our full understanding that if the vacate permit does not pass third reading of City Council PRC will remove any improvements on the easement.

Thank you,

Travis Bourne
