Mr. & Mrs. Dewey Glover
4100 Mesa Verde Drive
Gillette, WY 82718

Dear Mr. & Mrs. Dewey Glover:

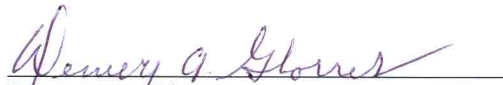

The City of Gillette has received your request for water service on your property located at 1800 West 4-J Road, which is legally described as Lot 13B, Donkey Creek Subdivision. The City Council approved Resolution No. 2327 on July 5, 2011, which postpones the approval of new water service requests outside the City, until the water supply is increased. The Resolution does allow for water service consideration in exceptional emergency situations. In addition, the City Council has been consistent in requiring the annexation of properties requesting services which are adjacent to the City limits.

Due to the exigent circumstances of the water situation, the City Council is willing to consider your request for water service. If your request is approved, you may install the water, and/or sanitary sewer service prior to the annexation of your property, so long as you agree to begin a property owner initiated annexation process for your land within 12 months. The City will ask you to submit a petition to annex and petition to zone form as well as work with a private consultant to prepare the annexation plat for your property.

If you agree to start the annexation process on your property at 1800 West 4-J Road in the next 12 months in exchange for City Council consideration of water, and/or sanitary sewer service, please sign this document below. Also, by agreeing to annex your property, you will receive City services and pay Plant Investment Fees at the comparable in-City rate.

I hereby consent to the terms and conditions described in this letter for annexation of my property located at 1800 West 4-J Road and legally described as Lot 13B, Donkey Creek Subdivision. Should the water and/or sanitary sewer request be approved by the City Council, I understand my obligation to begin the annexation property within 12 months from the City Council approval date.
