Dear CJ,

Doud BTS, Inc. has completed the The Antelope Valley Business Park Phase III Project no. 11EN27, and is requesting reimbursement for the oversized tap fees for the 3,400 linear feet of main installed.

The actual price difference between the 8" PVC and 12" PVC came to \$3.35 per linear foot, bringing the total to \$11,390.00 to be reimbursed to Doud BTS, Inc.

Please let me know if you have any questions or concerns.

Thanks,

Ben Doud
