Project: Means Water and Sewer District Tank Repaint

RE: Engineer's Statement of Feasibility

Dear Office of State Lands and investment,

The Means Water and Sewer District is requesting Mineral royalty Grant funding in order to proceed with the Tank Repaint Project. The Project will consist of repainting the entirety of the exterior of both of the District's tanks (7200 SF), the entirety of the interior ceiling of one tank (700 SF), 50% of the interior walls of one tank (1500 SF), the entirety of the interior floor of one tank (700 SF), and the exterior of the site control building (500 SF).

Both tanks are aged, having been constructed in 1991 and 1994, and are in need of repainting to protect the tank structures and the quality of the District's drinking water. Painting of the tanks is part of the District's preventative maintenance plan to avoid future, more costly projects such as tank replacement.

The Project is not only feasible, but required to maintain the system.

If any additional information is needed, please do not hesitate to call me at 307-682-8936.

Sincerely,

HDR Engineering, Inc.
