There were two (2) addenda for this project and it was acknowledged on all bids. Proper Bid Security in the form of a Bid Bond in the amount of five percent (5%) of the bid amounts was included with all bids as well as the "Certificate of Residency Status."

There were no mathematical errors found with the bids as all the bids were submitted on the electronic bid form print outs. The bids are tabulated as follows:

The bidders are local contractors and have worked on similar projects throughout the region and for the City of Gillette. S&S Builders has indicated they are comfortable with their bid and that they have the equipment, materials, and manpower to complete your project in the time frame allowed and in accordance with the contract documents.

A bid tabulation form with the comparable unit pricing and totals is attached. The low bid is 21.7% below the Engineer's Estimate and 20.0% below the average of the bids. The unit prices seen in the bids varied throughout among the bidders. Significant difference in unit prices with the low bidder were contained in the following bid items, Mobilization, Surplus Material Disposal, Imported Borrow, Joint Resealing, Concrete Paving and Curb and Gutter.
