To Whom It May Concern:

Eischeid Investments, LLC, et al have requested we provide you with a reference letter concerning their relationship with First National Bank of Gillette and their credit standing.

The Eischeid family and its entities have banked with us since 1981 and have handled every aspect of their relationship as agreed. There has been no NSF/OD activity. In addition, we have extended one credit facility in the moderate 7 figure range, with zero outstanding. Collateral consists of a security agreement and financing statement covering accounts receivable, inventory and equipment owned by one of their business entities. There have been no late payments.

We consider the Eischeids and all of their business entities to be highly valued clients of our bank with an exemplary credit history. Should you require any further information, I can be reached directly at 307/686-3306.

Sincerely,

Brian Ailts  
Vice President
