604-30-37-419-70-47610	\$728,000	\$787,746	-\$59,746

Background

These are replacement units for the Solid Waste Division's Units 8, 30, and 136 which are up for replacement. These replacement units were approved in the budget. In fact, one was approved in FY 2014, one was approved in FY 2015, and one was approved for this fiscal year. The original amounts that were budgeted *have not* changed; however, the costs of refuse trucks *have* changed. We are able to purchase these trucks by delaying replacement of one of our fleet tractors. These trucks must be replaced as soon as possible. The maintenance costs are averaging around \$40,000/year/truck on these units.
