I6.11.G *Conditions Beyond the Control of the Engineer*

1. The Owner recognizes that in the course of completing the services under this agreement, the Engineer may encounter conditions which are beyond the control of the Engineer and which create potential for claims against and

additional costs to the Engineer which are not covered in fees earned for services provided. This category includes, but is not limited to the following:

- Unknown underground utilities or other man-made objects not properly located underground.
- Unavoidable contamination of subsurface areas, aquifers, etc. or the disturbance of natural underground resources during the design and construction of the project.

If terms cannot be agreed to, the parties agree that either party has the right to terminate the Agreement. The Owner agrees to compensate the Engineer for any time spent and expenses incurred by the Engineer in defense of any such claim with such compensation to be based upon the Engineer's prevailing fee schedule and expense reimbursement policy.
