City of Gillette
P.O. Box 3003
Gillette, WY 82717-3003

Dear Sirs,

On behalf of the Local Planning Team, I am asking the City of Gillette to approve the submission to the State of Wyoming and FEMA of the final draft of the Multi-Jurisdiction Hazard Mitigation Plan Update.

The Plan must be updated every five years to remain eligible for hazard mitigation funding, and the Local Planning Team, made up of representatives of local governmental agencies and the private sector have been working for the past 8 months on this revision to our existing plan, which expires in September.

The plan contains very few new additions, but instead was revised based upon the local realities of changes within our communities and the jurisdictions of Gillette, Wright and Campbell County.

The Town of Wright gave their approval on Monday night, and with the County and City of Gillette's approval of submission of the plan, it will be sent to the State, which in turn will review the plan and forward it on to FEMA which will conduct the final review. If FEMA does not require any changes to the document, it will be "approved pending adoption," at which time it will come back for one final round of approvals from the three jurisdictions.

Sincerely,

David King
Coordinator
