Background

This is a replacement for Unit 185, which is a 1997 John Deere 5100M Tractor with loader that is a Vehicle Maintenance rental asset. This unit was carried over for replacement because of low usage for two fiscal years in succession. The mowing plan for this summer requires another large area mower to execute the Parks division mowing plan. Unit 185 will be auctioned in mid-June, with the revenue hitting FY19, with an expected return of at least \$20,000.00. This revenue will more than offset the budgeted amount for the replacement of the tractor.
